

SACRAMENTO CONTACT LENSES AND OPTOMETRY

Patient Name: _____

During an annual eye exam, our Doctors utilizes the **optomap® ultra-widefield retinal exam** to monitor for complications including macular degeneration, diabetic retinopathy, glaucoma, and retinal holes or detachments. *These problems can develop without warning and sometimes with no signs or symptoms.*

This state-of-the-art technology also allows our Doctors to see small details that can assist with detecting systemic problems unrelated to the eye such as diabetes, hypertension, cancer/tumors, auto-immune disorders, and others earlier than with traditional methods.

The optomap® Retinal Exam:

- ✓ Is as fast as taking a picture.
- ✓ **DOES NOT REQUIRE DILATING DROPS.** You may not need to be dilated today, potentially eliminating a 30-minute wait and avoiding side effects such as blurry vision and light sensitivity.
- ✓ Saved in your file enabling your doctor to make important comparisons during your annual eye exam.

The optomap® Retinal Exam is only \$39.00 and is usually not covered by insurance.

____ I understand that the optomap® Retinal Exam will be performed today and do not have any questions.

____ I would like to discuss this with the Doctor first
